repeated.

† The acreage under crops dealt with in Section A 3 is exclusive of the areas for which statistics are not available.

(h) The difference between the total area irrigated (A 2—6) and the total area of crops irrigated (A 2—7) is due to the omission from the latter column of the crop areas irrigated in the Mandla District.

(l) Separate details are not available.

(m) Represents the areas irrigated from private canals in the Kumaun District only · the areas irrigated from private canals in the other districts have been included under Government canals.

(a) Included under "Other sources."

(p) The difference (190 acres) between the total net area cropped shown in column 5 of Section A 2 and in column 33 of Section A 3 occurs in Upper Burma from which no explanation has been received.
